

Griffy Lake Nature Preserve

Griffy Lake Nature Preserve is home to several rare plant species and is considered one of the best remaining examples of mature upland forest in this area. Due to these unusual and fragile characteristics, as well as the scientific value of the land, this area has been set aside for preservation and protection.

To help protect the unique features and qualities of this natural area, some activities are prohibited, including horseback riding, mountain biking, off-road vehicles, dumping, military excursions, campfires, and swimming.

Swimming—Swimming is prohibited.

the boathouse.

trash and recycling receptacles are located around the boathouse. Grills are not provided. Grilling is

permitted, but ground fires are prohibited. Separate
